

3 User Stories about my project

- 1)As a user I want to find pets according to their position and description, so that I can adopt them.
- 2)As a user who wants to put a pet in adoption I want to write announcements, so that I can find someone to adopt my pet.
- 3)As a user who wants to adopt a pet I want to know available appointment slots, so that I can schedule an appointment to see the pet before to adopt him.
